CARRIE PAUL

STUDENT NURSE

PROFESSIONAL SUMMARY

Dedicated nursing student with a strong academic background and clinical experience in acute care settings. Proficient in clinical procedures including medication administration, wound care, and patient assessment using electronic health records (EHR). Skilled in interdisciplinary collaboration to develop and implement patient-centered care plans.

PROJECTS

- January 2023 - Now / University of the Pacific, Pleasanton, CA

Research Project: Type I Diabetes Management

- Conducted a systematic literature review using PubMed and other databases to identify current trends and challenges in type I diabetes management.
- Analyzed patient data using statistical software (e.g., SPSS) to evaluate the effectiveness of insulin therapy regimens in glycemic control.
- Presented findings at a university symposium, demonstrating effective communication and research skills to peers and faculty.

CLINICAL EXPERIENCE

- August 2023 - December 2023 / Mercy Hospital, Dublin, CA

Intern

- Utilized electronic health record (EHR) systems to document patient assessments, treatments, and progress notes, ensuring accuracy and compliance.
- Administered medications and intravenous therapies under supervision, adhering to hospital protocols and ensuring patient safety.
- Collaborated with interdisciplinary healthcare teams to develop and implement patient care plans, resulting in improved patient outcomes and satisfaction.

COURSES

- American Heart Association

Basic Life Support (BLS) Certification (2023)

- HIPAA Training

HIPAA Certification (2023)
