CINDY ALVES

DEVELOPMENT DATABASE ADMINISTRATOR

PROFESSIONAL SUMMARY

Accomplished Development Database Administrator with over 10 years of experience in managing, designing, and optimizing database systems for leading organizations. Proficient in ensuring high availability, performance tuning, and data security across various platforms, including Oracle, SQL Server, and MySQL.

EXPERIENCE

July 2021 - Now

Senior Development Database Administrator

Amazon Web Services (AWS) / United States, Santa Clarita, CA

- Design and implement complex database architectures for high-traffic applications.
- Develop and optimize SQL queries, stored procedures, and triggers to enhance application performance and data retrieval efficiency.
- Implement and enforce security policies and procedures, encryption, access controls, and compliance with data protection regulations (GDPR, HIPAA).

August 2018 - May 2021

Database Administrator

The Walt Disney Company / United States, Burbank, CA

- Performed database tuning and optimization, resulting in a 20% reduction in query execution times.
- Created and managed database documentation, including architecture diagrams, change logs, and recovery plans.
- Developed scripts for automation of routine database maintenance tasks, reducing manual workload by 40%.

May 2016 - April 2018

Junior Database Administrator

Sony Pictures Entertainment / United States, Culver City, CA

- Assisted in the design and development of database schemas and structures for client projects.
- Monitored database performance and applied updates and patches as necessary.
- Developed and maintained internal tools for database monitoring and management.
