# EDWARD HARRIS

## ATHLETIC TRAINING RESEARCHER

## PROFESSIONAL SUMMARY

Recent Bachelor of Science graduate seeking an entry-level position as an Athletic Training Researcher. Eager to apply academic knowledge and hands-on research experience in sports medicine to contribute to innovative research and advancements in athlete health and performance.

## EXPERIENCE

- May 2023 - August 2023

### Volunteer Athletic Trainer

Lawrence High School / United States, KS

- Provided support during athletic events and practices, including injury assessment and first aid.
- Assisted the head athletic trainer with rehabilitation exercises and injury prevention programs.
- Educated athletes on proper techniques and safety measures to reduce the risk of injuries.
- Supported the organization and execution of injury prevention workshops and health education sessions.

## RESEARCH EXPERIENCE

- September 2023 - May 2024 / University of Kansas, Lawrence, KS

### Undergraduate Research Assistant

- Assisted in research projects focused on injury prevention and recovery techniques for athletes.
- Conducted literature reviews and compiled data for ongoing research studies.
- Assisted with data collection and analysis using statistical software (e.g., SPSS).
- Presented research findings in lab meetings and contributed to research reports.
