PROFESSIONAL SUMMARY

Dedicated and highly skilled Pediatric Cardiac Sonographer with experience in performing ultrasound on infants, children, and adolescents. Proficient in assessing congenital heart defects, performing fetal echocardiography, and collaborating with pediatric cardiologists to deliver accurate diagnostic information.

EXPERIENCE

Pediatric Cardiac Sonographer

2019 - Now

Children's Hospital Boston, United States, MA

- Perform stress echocardiography procedures on pediatric patients to assess cardiac function during physical exertion when required.
- Work closely with healthcare teams to develop diagnostic and treatment plans.
- Perform fetal echocardiography to assess heart development in unborn children and identify potential cardiac issues in utero.
- Contribute to research studies focused on pediatric heart diseases.

Sonographer

2016 - 2019

Fresco Medical Center, United States, Boston, MA

- Conducted a range of ultrasound studies and contributed to patient care in a fast-paced environment.
- Assisted in training medical students and residents in echocardiographic procedures.
- Recorded measurements and visual data, to prepare comprehensive reports for cardiologists.
- Explained echocardiographic procedures to patients in an easy-to-understand manner, providing reassurance and answering any questions.
