Subject: Seeking Your Advice on Career Transition

Hi Brian,

I hope you're doing well! It's been a while since we worked together at Cisco, and I wanted to reach out as I'm considering a transition into product management.

Your experience in that area has always impressed me, and I would love to hear any insights you might have about making this shift. If you have some time for a chat, I would be very grateful.

Thanks in advance for your help!

Best,

Amanda Liu
