

Ethan Patel

Senior iOS Backend Developer

(212) 555-4567

ethan.patel@email.com

New York, NY

Results-driven Senior iOS Backend Developer with over 9 years of experience in building scalable backend services for mobile applications. Proficient in server-side technologies and database management, with a strong focus on security and performance optimization. Proven track record of delivering high-quality solutions in fast-paced environments.

Experience

January 2020 - Now

Senior Backend Developer

Innovative Tech Solutions / New York, NY

- Lead the development of backend services for a popular social media app with over 1 million active users, ensuring high availability and performance.
- Architect and implemented RESTful APIs, enabling seamless communication between the mobile app and server.
- Collaborate with frontend developers to optimize application performance, resulting in a 40% decrease in load times.

June 2015 - December 2019

Backend Developer

TechCorp, New York, NY

- Developed and maintained scalable backend systems for various mobile applications, focusing on security and data integrity.
- Implemented automated testing and CI/CD pipelines, reducing deployment times by 50%.
- Conducted code reviews and mentored junior developers, fostering a collaborative team environment.

Projects

- Real-Time Chat Application** (February 2024). Designed a scalable chat application backend using Node.js and WebSocket, supporting real-time messaging for mobile users.
- E-commerce Platform** (June 2022). Developed a backend system for an e-commerce app, implementing payment processing and inventory management.

Education

Master of Science in Computer Science

Columbia University, New York, NY

Graduated: May 2015

Certifications

- AWS Certified Solutions Architect – September 2021
- Certified Kubernetes Administrator (CKA) – December 2020
