### PROFESSIONAL SUMMARY

Detail-oriented Water Resources Engineer with over 8 years of experience in designing water supply systems and wastewater treatment facilities. Committed to sustainable practices and innovative solutions to address water resource challenges.

### EXPERIENCE

2018 - Now

#### Water Resources Engineer

Hydro Solutions Inc.  
San Francisco, CA

- Designed and implemented a stormwater management system for a 500-acre urban development project, reducing runoff by 40%.
- Conduct hydrologic modeling and analysis for water supply assessments and feasibility studies.
- Collaborate with local agencies to develop policies for water conservation and sustainable practices.

2016 - 2018

#### Junior Water Resources Engineer

EcoTech Engineering  
Orlando, FL

- Assisted in the design and evaluation of wastewater treatment processes, achieving a 20% reduction in effluent pollutants.
- Supported field studies and data collection for water quality monitoring projects.
- Participated in community outreach programs to educate the public on water conservation.

### EDUCATION

#### Master of Science in Water Resources Engineering

University of California, Berkeley, CA

*Graduated: May 2018*

#### Bachelor of Science in Environmental Engineering

University of Florida, Gainesville, FL

*Graduated: May 2016*

### Certifications

- Engineer-in-Training (EIT) — Issued: January 2019
- Certified Floodplain Manager (CFM) — Issued: March 2020

### SKILLS

Hydrologic Modeling

Water Quality Assessment

Stormwater Management

Regulatory Compliance
