EXPERIENCE

2021 - 2024

Mobile Web Developer

Accenture / United States, Oklahoma City, OK

- Developed responsive mobile applications using React Native.
- Collaborated with UX/UI designers to create intuitive user interfaces.
- Implemented RESTful APIs to facilitate communication between the mobile app and back-end services.
- Conducted performance testing and optimization, reducing app load time by 25% and improving overall user satisfaction.

2018 - 2021

Front-End Developer

Cognizant Technology Solutions / United States, Oklahoma City, OK

- Designed responsive websites and mobile applications using HTML, CSS, and JavaScript, achieving an average page load time of under 2 seconds.
- Worked closely with cross-functional teams to gather requirements and translate them into technical specifications.
- Utilized frameworks such as Bootstrap and jQuery to enhance web functionality and aesthetics.
- Assisted in debugging and troubleshooting web applications to improve user experience and functionality.

Projects

E-commerce Mobile Application

- Developed a feature-rich mobile application for a local retail business using React Native, integrating payment processing and real-time inventory management.

Fitness Tracking Web App

- Created a responsive web application for fitness tracking using HTML, CSS, and JavaScript, allowing users to log workouts and track progress.
- Integrated third-party APIs for real-time data and analytics, enhancing user experience.
