PROFESSIONAL SUMMARY

Dynamic DevOps Engineer with over 10 years of experience in automating deployment pipelines and managing cloud infrastructure. Strong expertise in CI/CD, containerization, and performance monitoring.

EDUCATION

2011 - 2015

Bachelor of Science in Information Technology

New York University / United States

AWS Certified DevOps Engineer – Professional

Certification Date: September 2022

Docker Certified Associate

Certification Date: February 2021

SKILLS

- Proficient in CI/CD tools (Jenkins, GitLab CI) — Expert
- Strong experience with cloud platforms (AWS, Azure) — Expert
- Familiar with container orchestration (Kubernetes) — Expert
- Expertise in scripting languages (Bash, Python) — Expert
- Knowledge of infrastructure as code (Terraform, CloudFormation) — Expert

AWARDS

- Best Innovation Award
- Employee of the Month

EXPERIENCE

2023 - Now

Senior DevOps Engineer
CloudTech Solutions / United States, New York, NY

- Design and implement a CI/CD pipeline that reduced deployment times by 50% and improved release frequency.
- Manage AWS infrastructure using Terraform, achieving significant cost savings through resource optimization.
- Establish monitoring and alerting systems using Prometheus and Grafana, enhancing system reliability.

2018 - 2023

DevOps Engineer
Innovative Apps Inc. / United States, New York, NY

- Automated software builds and deployments using Jenkins and GitLab CI, improving team productivity.
- Collaborated with development and QA teams to streamline workflows and eliminate bottlenecks.
- Implemented containerization strategies with Docker, improving environment consistency and scalability.

Projects

Automated Deployment System - Developed a fully automated system for microservices architecture using Jenkins and Docker.

Cost Optimization Initiative - Led a cost optimization initiative on AWS that identified underutilized resources and rightsized instances.
