## PROFESSIONAL SUMMARY

Experienced Medical Science Liaison (MSA) with 10+ years in the pharmaceutical industry, specializing in oncology and immunology. Skilled in establishing strategic partnerships with key opinion leaders (KOLs) and healthcare professionals (HCPs), driving clinical and scientific initiatives.

## EXPERIENCE

### Senior Medical Science Liaison (MSA)

2019 - Now

Pfizer, Inc. – New York, NY

- Lead scientific communication for Pfizer's immuno-oncology pipeline, working with over 50 KOLs and principal investigators across the Northeast U.S.
- Provide strategic scientific input for phase II and phase III clinical trials, ensuring alignment with regulatory and scientific objectives.
- Represent Pfizer at major medical conferences, delivering scientific presentations to internal and external stakeholders.
- Partner with cross-functional teams (medical affairs, clinical operations, marketing) to develop educational materials, medical communications, and publications.

### Medical Science Liaison (MSL)

2015 - 2018

Novartis – New York, NY

- Managed a portfolio of immunology and rheumatology products, supporting clinical trial recruitment, data generation, and post-marketing surveillance.
- Delivered in-depth scientific and clinical presentations to healthcare professionals and decision-makers in the New York area.
- Enhanced stakeholder relationships, resulting in improved collaboration between academic institutions and clinical trial sites.
