EXPERIENCE

2019 - 2024

Distribution Supply Chain Analyst

Bright Logistics Inc. / United States, Los Angeles, CA

- Analyzed and optimized distribution routes, reducing transit times and cutting transportation costs by an average of 15% annually.
- Used data-driven insights to streamline logistics processes, resulting in a 10% improvement in on-time delivery rates.
- Collaborated closely with warehouse and inventory teams to ensure optimal stock levels across distribution centers, preventing stockouts and overages.
- Developed and implemented KPI dashboards to monitor distribution metrics, including lead times, shipping accuracy, and order cycle times.

2016 - 2019

Logistics and Distribution Coordinator

Metro Distribution Corp. / United States, Torrance, CA

- Coordinated daily distribution activities, ensuring timely delivery of goods across multiple regions and optimizing delivery schedules for cost efficiency.
- Maintained distribution data accuracy in ERP systems, improving order tracking and real-time inventory visibility by 20%.
- Analyzed historical distribution data to identify seasonal trends and adjust stock levels accordingly, leading to a 25% reduction in seasonal backorders.

2014 - 2016

Logistics Analyst

Supply Chain Solutions Inc. / United States, Santa Monica, CA

- Analyzed shipment data to identify patterns in delivery delays and developed corrective action plans to address these issues, reducing delays by 18%.
- Monitored transportation costs and identified areas for cost reduction, implementing changes that resulted in a 15% savings on annual logistics expenses.
