

# MICHAEL JOHNSON

## MANUAL TESTER

### PROFESSIONAL SUMMARY

Recent graduate with a degree in Computer Science seeking an entry-level Manual Tester position. Eager to apply academic knowledge of software testing and eager to learn new tools and methodologies to contribute to high-quality software delivery.

### EXPERIENCE

- June 2023 - August 2023

#### QA Intern

CloudLink Solutions / Chicago, IL

- Supported the QA team in manual testing of a customer portal, focusing on functional, UI, and regression tests.
- Assisted in writing and executing test cases and documenting defects in the issue tracking system.
- Verified data integrity and performed basic SQL queries to validate database values.
- Participated in daily standups and contributed to improving test case design and reporting formats.

### EXTRACURRICULAR ACTIVITIES

- September 2022 - May 2024 / University of Illinois

#### Member, University Robotics Club

- Collaborated with a team to design and test autonomous robots. Focused on testing and troubleshooting the system's software and hardware to ensure smooth operation during competitions.

- September 2022 - May 2023 / University of Illinois

#### Organizer, Computer Science Club Speaker Series

- Organized events where professionals in the software industry spoke about their careers and advancements in technology. Managed logistics, coordinated with guest speakers, and helped promote the events.
