

Pipefitter

Michael Johnson

Professional summary

Motivated and detail-oriented Pipefitter Apprentice seeking to leverage foundational skills in pipe system installation, maintenance, and repair in an entry-level role. Eager to contribute to a professional team and gain hands-on experience in industrial or commercial settings.

Experience

Pipefitting Intern

May 2024 - August 2024

Denver City Facilities Management / United States, CO

- Assisted senior pipefitters in routine maintenance and repairs of HVAC, plumbing, and fire suppression systems.
- Gained experience in cutting, threading, and assembling pipes under supervision.
- Observed and adhered to safety standards and protocols in facility operations.
- Documented daily maintenance tasks and system inspections for reference.

General Laborer (Construction)

June 2022 - April 2023

Rocky Mountain Builders / United States, Denver, CO

- Supported pipe installation by transporting materials and prepping work areas for construction teams.
- Used basic tools for pipe threading and alignment during residential construction projects.
- Followed team leads to ensure timely and accurate project completion.
- Maintained a clean and safe workspace, adhering to OSHA safety regulations.

Additional Information

- Quick learner with hands-on training in industrial environments.
- Interested in pursuing NCCER Pipefitter certification to advance technical expertise.
