EDUCATION

2020 - 2024

Bachelor of Science in Computer Science

University of California, United States

Oracle Certified Java Programmer (OCPJP)

Certification Date: April 2023

PROFESSIONAL SUMMARY

Passionate and detail-oriented Junior Java Developer with a focus on backend development. Skilled in Java, Spring Boot, and RESTful API design. Eager to contribute to building scalable, efficient backend solutions and enhance overall application performance.

EXPERIENCE

Junior Backend Developer   2024 - Now

Tech Solutions, United States, San Francisco, CA

- Assist in the development and maintenance of RESTful APIs using Spring Boot and Java.
- Collaborate with senior developers to optimize backend systems and databases, improving response time by 30%.
- Implement integration tests using JUnit and Mockito to ensure high-quality code and maintainable systems.
- Manage database interactions using JDBC and Hibernate to handle complex queries and transactions.

Intern, Software Development   2024 - 2024

CodeCraft, United States, San Francisco, CA

- Assisted with the development of backend services for web applications using Java and MySQL.
- Gained hands-on experience in cloud technologies like AWS Lambda and EC2, contributing to serverless solutions.
- Participated in code reviews, bug fixes, and deploying microservices in a Docker containerized environment.
