Highly motivated Junior Full Stack Java Developer with experience in both frontend and backend technologies. Adept in building scalable web applications and passionate about solving complex problems through clean, efficient code.

Experience

● Junior Full Stack Developer June 2024 - Now

Innovative Tech Solutions,
United States, Los Angeles

- Develop full-stack Java applications using Spring Boot for the backend and JavaFX for the frontend.
- Work with RESTful APIs and integrated frontend components using HTML, CSS, and JavaScript to interact with backend services.
- Lead the development of a customer portal, increasing user engagement by 40% through intuitive design and faster load times.
- Utilize MySQL and MongoDB to manage data storage and retrieval for a range of applications.

● Software Development Intern January 2024 - May 2024

WebTech Labs, United States, Los Angeles

- Assisted with building a web application that connects customers with service providers using Java Spring and Angular.
- Integrated third-party APIs for payment processing and notifications.
- Wrote unit tests to ensure application reliability, using JUnit and TestNG for both frontend and backend components.
