EMILY RICHARDS

ICU CRITICAL CARE NURSE

PROFESSIONAL SUMMARY

Dedicated ICU Critical Care Nurse with 10+ years of experience delivering high-quality care to critically ill patients in fast-paced, high-acuity settings. Expertise in ventilator management, hemodynamic monitoring, and post-surgical recovery. Committed to patient-centered care and continuous professional development to ensure optimal outcomes.

EXPERIENCE

- July 2018 - Now

Intensive Care Unit Nurse

Johns Hopkins Hospital / Baltimore, MD

- Provide direct care to a diverse population of critically ill patients, including those with respiratory failure, sepsis, and post-operative complications.
- Conduct advanced cardiac and hemodynamic monitoring to assess patient status and adjust treatment plans accordingly.
- Collaborate with intensivists and interdisciplinary teams to implement care plans, resulting in a 20% decrease in patient complications.
- Train and mentor new nurses, ensuring adherence to evidence-based protocols and hospital standards.

- May 2015 - June 2018

Critical Care Nurse

Cleveland Clinic / Cleveland, OH

- Delivered 1:1 care to patients requiring ventilation and cardiac support.
- Coordinated with families to provide education and emotional support during critical situations.
- Participated in quality improvement initiatives, leading to a 15% improvement in patient satisfaction scores.
