PROFESSIONAL SUMMARY

Experienced CCU Critical Care Nurse with over 14 years in cardiac intensive care, specializing in the management of acute cardiac conditions such as myocardial infarctions, arrhythmias, and post-cardiac surgery recovery. Recognized for delivering compassionate, evidence-based care in high-pressure environments.

EXPERIENCE

August 2014 - Now

Cardiac Care Unit Nurse

Massachusetts General Hospital / Boston, MA

- Provide 1:2 care to patients with acute cardiac conditions, including heart failure and post-myocardial infarction.
- Utilize advanced monitoring equipment to manage patients on intra-aortic balloon pumps and continuous hemodynamic support.
- Lead patient education initiatives, improving medication adherence rates by 25%.
- Spearhead a quality improvement project that reduces central line-associated infections (CLABSIs) by 30%.

June 2011 - July 2014

Critical Care Nurse

Northwestern Memorial Hospital / Chicago, IL

- Monitored and treated patients in the CCU with advanced cardiac devices, including pacemakers and defibrillators.
- Supported successful implementation of new telemetry systems, enhancing team responsiveness to arrhythmias.
- Provided leadership in cardiac arrest code response, ensuring effective team coordination and patient stabilization.

EDUCATION

Bachelor of Science in Nursing (BSN)

University of Michigan, Ann Arbor, MI

Graduated: May 2011

Certifications

- Certified Cardiac Registered Nurse (CCRN)
- Basic Life Support (BLS) and Advanced Cardiovascular Life Support (ACLS)
