

Christine Smith

AWS Solution Architect

(555) 123-4567

christine.smith@email.com

Chicago, IL

Experienced AWS Solution Architect with 11+ years of expertise in designing scalable, secure, and cost-effective cloud-based solutions. Proficient in leveraging AWS services to optimize application performance and reduce operational costs. Skilled in leading cross-functional teams and delivering enterprise-level cloud transformations.

Experience

January 2018 - Now

AWS Solution Architect

TechEdge Solutions, Chicago, IL

- Design and implement serverless solutions using AWS Lambda, reducing application runtime costs by 40%.
- Migrate legacy systems to AWS, leveraging EC2 and RDS, resulting in a 25% improvement in system performance.
- Deploy monitoring tools like CloudWatch and third-party integrations to ensure 99.9% uptime.
- Lead workshops and training sessions for clients on AWS best practices and optimization strategies.

June 2014 - December 2017

Cloud Engineer

Innovate IT, Dallas, TX

- Built scalable and secure infrastructures on AWS for healthcare and e-commerce clients.
- Automated deployment pipelines using AWS CodePipeline and Jenkins.
- Collaborated with stakeholders to implement disaster recovery strategies using S3 Glacier and AWS Backup.
- Conducted performance tuning for cloud-hosted applications, improving system efficiency by 20%.

Publications

- "Optimizing Serverless Architecture in AWS Lambda" – *TechCloud Journal*, January 2024
- "Best Practices for Cloud Migration" – *Cloud Computing Digest*, July 2021

Education

Bachelor's in Computer Science

University of Illinois, Chicago, IL

Certifications

- AWS Certified Solutions Architect – Professional, May 2023
- Certified Kubernetes Administrator (CKA), November 2021
