

Construction Quality Inspector

Sophia Martinez

Professional summary

Experienced Construction Quality Inspector with 13+ years in monitoring construction projects for compliance with blueprints, safety regulations, and quality standards. Adept at collaborating with contractors and engineers to resolve project challenges and ensure timely delivery.

Experience

Construction Quality Inspector

July 2015 - Now

Mountain Builders Group – Denver, CO /

- Conduct daily inspections on active construction sites, verifying that work adhered to architectural plans, safety regulations, and quality benchmarks.
- Perform tests on construction materials such as concrete and steel to confirm compliance with engineering specifications and safety standards.
- Collaborate with contractors, project managers, and engineers to address and resolve issues that could delay project timelines or compromise quality.
- Maintain detailed inspection logs and reports, contributing to streamlined communication and accountability among all project stakeholders.

Construction Quality Assistant

September 2012 - June 2015

Summit Construction Solutions – Boulder, CO /

- Assisted senior inspectors in evaluating construction sites for compliance with building codes and quality standards, focusing on foundational and structural elements.
- Reviewed project plans to identify potential risks, providing recommendations to enhance safety and efficiency.
- Documented inspection findings in organized reports and presented them during project meetings for team review and follow-up actions.
- Supported in training junior staff members on quality inspection protocols and effective documentation practices.
