Mobile QA Tester

PROFESSIONAL SUMMARY

Mobile QA Tester with experience in testing mobile applications on iOS and Android platforms. Proficient in test case creation, defect tracking, and performance testing. Proven ability to ensure the quality of mobile apps for optimal user experience.

EXPERIENCE

Mobile QA Tester, Bank of America, San Francisco, CA

March 2021 - Now

- Perform manual and automated testing of mobile banking apps on iOS and Android devices to ensure optimal functionality and performance.
- Create and execute test cases for mobile apps, focusing on UI/UX, security, and performance issues.
- Report bugs and track issues in JIRA, ensuring clear documentation of steps to reproduce and root causes.
- Collaborate with mobile developers to optimize app performance and improve mobile user interfaces.

Junior Mobile Tester, Techwave Solutions, San Francisco, CA

July 2019 - February 2021

- Performed testing on mobile apps for functionality, security, and cross-platform compatibility.
- Assisted in the creation and maintenance of the test plan and test scripts.
- Provided feedback to the development team on user experience, app stability, and security features.
