EDUCATION

Bachelor of Science in Computer Science

University of California, Berkeley, CA
Graduated: May 2024

Relevant Coursework: Data Structures, Machine Learning, Database Management, Big Data Technologies

AWS Certified Solutions Architect – Associate

Amazon Web Services (AWS)
April 2025

SKILLS

- SQL (MySQL, PostgreSQL)
 - ETL Processes
 - Python
 - Data Warehousing (Redshift, BigQuery)
 - Apache Spark
 - Git and Version Control
 - Data Visualization (Tableau)
 - AWS (S3, Lambda, EC2)
 - Linux and Shell Scripting

PROFESSIONAL SUMMARY

Motivated Junior Data Engineer with a strong foundation in SQL, Python, and ETL processes. Passionate about building efficient data pipelines and transforming raw data into valuable insights. Seeking an opportunity to contribute to data-driven decision-making at a fast-paced tech company.

EXPERIENCE

- 2024 - Now

Junior Data Engineer

TechVision Solutions / San Francisco, CA

 - Assist in the development of ETL pipelines using Python and Apache Airflow to process large datasets.
 - Optimize data processing workflows, reducing processing time by 15%.
 - Collaborate with analysts to clean and transform data for business reporting.
 - Monitor database performance and assist with troubleshooting and optimization tasks.
- 2023 - 2023

Data Engineering Intern

DataStream Technologies / San Francisco, CA

 - Supported the team in designing and implementing data storage solutions using Amazon Redshift.
 - Conducted data quality checks and created scripts for automating routine tasks.
 - Worked closely with senior engineers to refine data models and improve pipelines.

PROJECTS

- Sales Data ETL Pipeline

Developed a complete ETL pipeline to extract sales data from an external API, transform it into a clean format, and load it into a PostgreSQL database. The project involved data extraction, error handling, and scheduling with Apache Airflow.
