PROFESSIONAL SUMMARY

Experienced internal medicine physician with years of practice at St. Joseph's Hospital in San Francisco, CA. Known for providing high-quality care, diagnosing complex conditions, and working closely with multidisciplinary teams to improve patient outcomes.

EXPERIENCE

Physician

2013 - Now

St. Joseph's Hospital, San Francisco, CA

- Provide comprehensive care for adult patients, specializing in chronic disease management, preventive care, and diagnostic testing.
- Lead a team of nurses, medical assistants, and support staff to streamline patient care, ensuring efficient workflow and high satisfaction rates.
- Achieved a 25% reduction in hospital readmission rates by developing and implementing an improved discharge planning protocol.
- Collaborate with specialists in cardiology, endocrinology, and rheumatology to create comprehensive treatment plans for patients with complex conditions.

Resident Physician

2008 - 2013

UCSF Medical Center, San Francisco, CA

- Managed patients in various clinical settings, from the emergency room to inpatient care, under the supervision of attending physicians.
- Gained experience in diagnostics, emergency response, and patient care management across a wide range of medical conditions.
- Participated in clinical research aimed at improving patient outcomes in the fields of hypertension and diabetes management.
- Worked alongside senior doctors to perform procedures and assist with complex medical cases in the ICU.
