LENA NOLTE

VETERINARY PHLEBOTOMIST

PROFESSIONAL SUMMARY

Compassionate and detail-oriented veterinary phlebotomist with over 6 years of experience in blood collection, sample processing, and laboratory analysis. Proven ability to provide excellent care to animals while ensuring high-quality results in blood work.

EXPERIENCE

- June 2021 - Now

Veterinary Phlebotomist

Vets of Manhattan Animal Clinic / New York, NY

- Collect blood samples from animals of all sizes, including dogs, cats, and exotic species.
- Perform venipuncture, handle animals gently, and ensure minimal discomfort during the procedure.
- Process and prepare blood samples for laboratory analysis, ensuring proper labeling and storage.
- Maintain accurate medical records and ensure compliance with hospital protocols.
- Assist veterinarians with diagnostic procedures, supporting their work in identifying medical conditions.
- Train and mentor new staff in blood collection techniques and proper handling of animal patients.

- April 2019 - May 2021

Veterinary Technician Assistant

Greenwich Village Pet Clinic / New York, NY

- Assisted veterinarians in routine exams and minor surgeries, ensuring patients were stable and comfortable.
- Administered injections and prepared medications under the supervision of licensed professionals.
- Provided client education on post-procedure care and medication administration.
- Ensured cleanliness and sterilization of veterinary instruments, exam rooms, and equipment.
