University of Florida

To Admissions Committee

University of California

Dear Members of the Admissions Committee,

I am honored to recommend Grace Perez for admission to the graduate program in Psychology at the University of California, Berkeley. I have had the pleasure of working closely with Grace for the past two years in my research lab at the University of Florida, where she has demonstrated an exceptional aptitude for both research and academic excellence.

Grace has consistently shown a high level of intellectual curiosity and dedication to her studies. As my research assistant, she was involved in a variety of projects examining cognitive behavioral therapy and its effects on mental health, and she proved herself to be an invaluable asset to our team. Grace's ability to design and implement experiments, analyze data, and interpret complex results was impressive for an undergraduate student.

In addition to her academic and research strengths, Grace has a natural talent for leadership and collaboration. She frequently organized team meetings, encouraged discussion among fellow students, and offered constructive feedback to peers.

I have no doubt that Grace will excel in the graduate program at UC Berkeley and contribute significantly to the academic community. She is a thoughtful, driven, and capable individual with the potential to make valuable contributions to the field of psychology. I give her my highest recommendation without reservation.

Please feel free to contact me at laura.simmons@ufl.edu or (352) 555-6789 if you have any further questions or need additional information.

Sincerely,

Dr. Laura Simmons
