EXPERIENCE

2025 - Now

Commercial Electrician

Citywide Electrical Contractors | Joliet, IL

- Install and maintain electrical systems in commercial buildings, including lighting, power outlets, and HVAC systems, ensuring all work meets local codes.
- Conduct routine system inspections and troubleshooting to maintain operational integrity and prevent failures.
- Lead small teams of apprentices, delegating tasks and ensuring all work is completed on schedule.
- Coordinate with contractors, project managers, and clients to ensure all specifications are met.

2022 - 2025

Warehouse Assistant

Joliet Supply Co. | Joliet, IL

- Assisted with organizing and inventorying electrical components, ensuring that essential tools and materials were readily available for projects.
- Coordinated product shipments and received deliveries, ensuring the correct quantities and quality standards were met.
- Provided assistance to electricians by preparing job materials and tools, saving time on job sites.
- Supported administrative tasks by updating inventory records and maintaining a clean, safe warehouse environment.

TECHNICAL PROFICIENCIES

- Electrical Testing Equipment.** Proficient with multimeters, circuit testers, and other diagnostic tools.
- Blueprint Software.** Experienced in using AutoCAD for electrical layout designs.
- Power Distribution Systems.** Knowledgeable in the installation and maintenance of medium voltage systems.
