Professional summary

Compassionate and dedicated Medical ICU nurse with experience providing high-quality care to critically ill patients in fast-paced hospital environments. Skilled in life-saving procedures, ventilator management, and emergency care. Seeking to leverage expertise in critical care to contribute to the excellence of patient care at Mercy General Hospital.

Experience

Medical ICU Nurse

2018 - Now
St. John's Medical Center / New York, NY

- Provide critical care to a diverse patient population with severe conditions such as respiratory failure, stroke, and sepsis.
- Monitor and manage mechanical ventilation for patients in respiratory distress, ensuring proper settings and adjusting treatments as needed.
- Administer medications, including sedatives, vasopressors, and anticoagulants, per physicians' orders while maintaining strict adherence to protocols.
- Collaborate with physicians, respiratory therapists, and multidisciplinary teams to develop and implement comprehensive care plans.

ICU Nurse

2016 - 2018
Mount Sinai Health System / New York, NY

- Managed care for patients recovering from major surgeries and medical procedures, including trauma and post-cardiac arrest care.
- Worked with ventilator-supported patients, including those requiring ECMO, and provided continuous monitoring of vital signs and oxygenation levels.
- Collaborated with healthcare teams to ensure timely and appropriate interventions, improving patient outcomes in critical situations.
- Supported a wide range of ICU patients, including those in severe shock, and assisted in daily rounds with the medical team.

Professional Development

- Completed a Critical Care Nursing Workshop focused on advanced ventilator management (2022)
- Attended the National Critical Care Conference, enhancing skills in sepsis management and ventilator strategies (2021)
