# EMILY TAYLOR

## CARDIAC ICU NURSE

## PROFESSIONAL SUMMARY

Skilled Cardiac ICU nurse with experience caring for critically ill patients. Expertise in advanced life support, post-operative recovery, and continuous cardiac monitoring. Passionate about providing compassionate care to patients experiencing life-threatening heart conditions. Seeking to contribute expertise to the team at CardioCare Hospital.

## EXPERIENCE

- 2017 - Now

### Cardiac ICU Nurse

**CardioCare Hospital** / Los Angeles, CA

- Provide care for patients experiencing cardiac arrest, heart failure, and post-operative recovery from open-heart surgery.
- Administer medications including vasopressors, anticoagulants, and pain relievers, monitoring for side effects and ensuring patient comfort.
- Interpret EKGs and assist in managing arrhythmias and other cardiac complications with advanced interventions.
- Support patients and families by explaining medical conditions and treatment plans in an understandable way, offering emotional and educational support.
- Collaborate with cardiologists and the multidisciplinary team to improve patient outcomes and ensure continuity of care.

- 2014 - 2017

### Cardiac ICU Nurse

**Cedars-Sinai Medical Center** / Los Angeles, CA

- Cared for critically ill patients with severe heart conditions, such as failure, arrhythmias, and post-cardiac surgery.
- Managed patients on invasive monitoring devices, including Swan-Ganz catheters and intra-aortic balloon pumps (IABP).
- Assisted in cardiac emergencies, including acute coronary syndromes and post-arrest care, providing immediate intervention and stabilization.
- Worked with a collaborative team to coordinate care plans and assess long-term recovery needs for cardiac patients.
