EXPERIENCE

2023 - Now

Concrete Laborer

Lone Star Concrete / Dallas, TX

- Mix and pour concrete for driveways, sidewalks, and building foundations, ensuring proper consistency and application.
- Use trowels and floats to smooth surfaces, creating a level and durable finish.
- Install steel reinforcement bars and wire mesh to strengthen concrete structures.
- Assemble and dismantle wooden and metal formwork for poured concrete.
- Assist with curing processes, applying sealants and moisture barriers to prevent cracks.

2021 - 2023

Construction Worker (Concrete Division)

Texan Builders / Fort Worth, TX

- Prepared job sites by marking and leveling areas before concrete placement.
- Operated vibrating tools to remove air pockets and ensure even distribution.
- Assisted in large-scale highway and bridge construction, working alongside engineers and foremen.
- Cleaned tools and maintained concrete equipment to prevent premature wear and damage.

PROJECTS COMPLETED

- DFW Airport Terminal Expansion – Concrete foundation work
- Trinity River Bridge Restoration – Reinforcement and finishing
- Multiple residential driveways and patios throughout Dallas-Fort Worth
