

Wildlife Control Specialist

Logan Pierce

Professional summary

Wildlife control specialist with experience in humane animal removal, exclusion repairs, and ecological site assessments. Strong background working in mountainous and rural environments with a focus on ethical relocation.

Experience

Wildlife Control Specialist

April 2019 - Now

Front Range Wildlife Solutions / Boulder, CO

- Perform wildlife removal and exclusion services for raccoons, squirrels, bats, and skunks in residential areas.
- Conduct full-site inspections and develop customized control plans based on species and structural layout.
- Seal access points and install one-way doors to ensure animals exit safely and do not return.
- Provide educational guidance to homeowners regarding habitat modification and prevention.

Wildlife Technician

May 2016 - March 2019

Colorado EcoPest / Golden, CO

- Assisted with bird control, attic exclusion jobs, and live trapping under senior supervision.
- Maintained records for state reporting and client documentation related to animal handling and disposal.
- Installed netting and exclusion barriers in commercial structures to prevent roosting and nesting.
- Participated in field trials to evaluate new types of humane trapping devices.

Field Equipment

Proficient with thermal cameras, extendable ladders, live traps, and roof harness systems.
