Phoenix, AZ

## EDUCATION

### Electrical Apprenticeship Program

Phoenix Electrical JATC | Phoenix, AZ |  
Completed 2015

### Certifications

- Arizona Journeyman Electrician License  
(Active since 2015)
- OSHA 30 Certification (2022)

### Additional Information

- Frequently requested by returning clients due to quality workmanship and clear communication.
- Installed solar-ready panel setups in over 20 residential projects, ensuring future renewable integration.
- Participated in Habitat for Humanity Phoenix electrical team volunteer build (2023).
- Completed contractor-led home automation certification course in 2021 to expand offerings in new builds.

## PROFESSIONAL SUMMARY

Licensed electrical foreman with over 9 years of experience in residential wiring, service upgrades, and custom home installations. Proven ability to lead small teams, manage homeowner expectations, and deliver clean, code-compliant electrical work.

## EXPERIENCE

### Residential Electrical Foreman

2020 - Now

#### Cactus Electric Co., Phoenix, AZ

- Manage complete electrical systems for more than 50 residential homes, including high-end custom builds in Scottsdale and Paradise Valley.
- Supervise teams of 5-7 electricians, allocating tasks, ensuring safety compliance, and resolving daily onsite issues.
- Interface with homeowners, contractors, and city inspectors to schedule walkthroughs and pass final inspections without delays.
- Oversee smart home integrations including Nest, Ring, and Lutron lighting systems, ensuring compatibility and client satisfaction.

### Lead Electrician

2016 - 2020

#### Southwest Wiring Solutions, Mesa, AZ

- Installed wiring for new constructions, additions, and full gut renovations in neighborhoods across Mesa and Gilbert.
- Trained two apprentices on code compliance, reading residential blueprints, and proper conduit installation techniques.
- Conducted troubleshooting and electrical safety audits during routine service calls and renovations.
- Handled emergency repair calls and quickly diagnosed issues, improving client response times by 35%.
