EXPERIENCE

2020 - Now

Lead Arborist
Northwest Tree Pros / Seattle, WA

- Operate insulated cherry pickers up to 65 feet to trim high-canopy trees near residential and commercial buildings, minimizing risk to structures and pedestrians.
- Perform hazard assessments before each climb or lift, ensuring compliance with city regulations and ANSI Z133 standards.
- Train and supervise 3 junior arborists on proper rigging techniques and emergency aerial rescue procedures.
- Collaborate with local parks departments during storm cleanup to remove over 200 downed or damaged trees while maintaining community safety.

2017 - 2020

Arborist Assistant
Evergreen Tree & Shrub / Bellevue, WA

- Assisted in pruning and removal operations for urban and rural clients, using boom lifts, pole saws, and climbing equipment.
- Prepared job sites by setting up traffic control and ground crew zones to meet safety protocols.
- Identified and documented tree diseases, communicating health concerns and treatment plans to clients.
- Maintained all climbing and lifting gear in accordance with weekly safety checklists and manufacturer standards.

VOLUNTEER WORK

2021 - Now

A regular volunteer for "Trees for Seattle" community planting and pruning events.
