

Dear Hiring Manager,

I am applying for the Avionics Technician position at American Airlines' DFW base. I am an FCC-certified technician with five years of experience working on digital and analog systems in Airbus A320 and Boeing 777 aircraft.

Currently with Aviation Technical Services, I install, inspect, and calibrate communication and navigation equipment. I also troubleshoot autopilot systems using BITE tools and have been part of multiple STC retrofit projects, including ADS-B upgrades.

American Airlines' investment in NextGen avionics modernization aligns with my professional focus. I take pride in working to improve safety, efficiency, and regulatory compliance in every repair I complete.

Thank you for considering my application. I'm available for an interview at your convenience.

Sincerely,

Michael Reyes
