PHI Air Medical

Dear PHI Recruitment Team,

I am writing to express interest in the Helicopter Pilot position based in Mesa. I hold a commercial rotorcraft license with instrument rating, along with 2,100 total helicopter hours—over 700 in EMS operations.

At my current post with MedFlight Services, I fly a Bell 407GX_i under Part 135 operations. I've completed advanced NVG training and maintain a perfect safety record across day and night missions. I am familiar with high-density altitude conditions and secure LZ coordination with EMS crews.

PHI's strong safety culture and dedication to lifesaving missions are what draw me to this opportunity. I'm passionate about precision flying and calm decision-making under pressure.

Thank you for reviewing my credentials.

Respectfully,

Eric L. Dalton
