## RESIDENTIAL LANDSCAPE FOREMAN

### PROFESSIONAL SUMMARY

---

Dedicated landscape foreman with experience leading residential landscaping projects across California. Proven expertise in managing crews, designing outdoor spaces, and maintaining high client satisfaction through quality work and timely delivery.

### EXPERIENCE

---

- 2019 - Now

#### Residential Landscape Foreman

**Green Horizon Landscaping** / San Mateo, CA

- Direct a team of 7 workers across multiple high-end residential landscaping jobs, handling everything from site layout to final cleanup.
- Oversee the installation of irrigation systems, patios, fire pits, and raised beds, ensuring all projects met client specifications and aesthetic goals.
- Train and mentor entry-level crew members on tool safety, landscape installation best practices, and customer service protocols.
- Collaborate with homeowners on custom design plans, helping convert conceptual sketches into functional and beautiful outdoor spaces.
- Maintain budget tracking and reduced average material waste by 15% through efficient ordering and site management.

- 2014 - 2019

#### Landscape Crew Leader

**Pacific Eden Grounds** / Redwood City, CA

- Supervised landscape maintenance and softscape installation for upscale residential neighborhoods and private gardens.
- Delegated daily tasks such as planting, edging, mulching, and cleanup, while ensuring quality control and consistent pace.
- Worked closely with project managers to adjust plans based on site conditions, plant availability, and client feedback.
- Introduced weekly equipment checklists that improved uptime and reduced tool-related delays across the team.
