Oil Driller

## CONTACT

(832) 555-1027

mason.delacroix@email.com

Houston, TX

## EDUCATION

### Technical Certificate in Drilling Operations

Texas State Technical College – Waco, TX | Graduated: 2010

### Certifications

- Well Control Certification – IADC, 2024
- Offshore Survival (HUET) – 2023
- OSHA Rig Safety – 2022

### Additional Information

Completed over 1,200 accident-free drilling days since 2017

## LANGUAGES

- Fluent in English and conversational Spanish

## PROFESSIONAL SUMMARY

Experienced oil driller with over a decade of hands-on rig operation, safety oversight, and crew leadership in both offshore and land-based settings. Proven ability to maintain drilling efficiency while ensuring compliance with rigorous safety protocols.

## EXPERIENCE

**Oil Driller** 2017 - Now

### Precision Drilling, Midland, TX

- Operate rotary and top-drive drilling systems on long-lateral wells in the Permian Basin, managing a 12-person crew and enforcing strict safety protocols to minimize risk.
- Reduce non-productive time by 18% through timely troubleshooting of mechanical issues, preventive maintenance, and effective resource coordination across shifts.
- Collaborate with drilling engineers and geologists to optimize drilling performance by adjusting parameters based on real-time downhole data and mud reports.
- Maintain comprehensive logs of drilling activity, safety observations, and equipment inspections to support compliance with federal and state regulations.

**Assistant Driller** 2011 - 2017

### Transocean, Gulf of Mexico, Offshore Platform

- Supported lead driller in executing deepwater drilling operations exceeding 5,000 ft, ensuring adherence to complex well plans and regulatory procedures.
- Supervised floorhands and roughnecks during tripping operations, verifying rig-up safety and proper use of blowout preventers and handling systems.
- Conducted pre-spud equipment checks, troubleshooting mechanical failures and hydraulic systems under high-pressure time constraints.
- Acted as incident response lead during kick events, initiating well control actions in accordance with IADC protocol and reporting outcomes to company man.

## SKILLS

Rotary and top drive drilling ★★★★★

Well control procedures ★★★★★

Drilling fluid systems ★★★★★

Crew supervision ★★★★★
