PROFESSIONAL SUMMARY

U.S. Army Logistics Specialist transitioning to civilian supply chain management after 12 years of orchestrating global material movement, inventory control, and transportation logistics. Skilled in ERP systems, asset tracking, and vendor coordination with a commitment to efficiency and accuracy.

Currently holding active Secret Clearance

EXPERIENCE

Senior Logistics Specialist

U.S. Army, Fort Hood, TX

March 2013 - August 2025

- Supervise and maintain accountability for over \$50 million in mission-critical equipment, ensuring precise documentation and compliance with all military asset control regulations across multiple units.
- Plan and execute transportation of high-priority materials across domestic and international locations, developing optimized shipment strategies that cut average delivery time by 20%.
- Lead a team of 10 logistics personnel, implementing hands-on training programs focused on inventory control, shipment processing, and warehousing safety to enhance operational consistency.
- Developed a digital barcode-based asset tracking system that significantly minimized equipment loss and increased retrieval accuracy, resulting in a 35% reduction in misplacements.

EDUCATION

Bachelor of Science in Supply Chain Management, University of Illinois at Chicago | Chicago, IL | Expected 2026 (currently enrolled online)
