EXPERIENCE

2017 - Now

Plumber

Rocky Mountain Plumbing LLC / Denver, CO

- Install and repair plumbing systems for over 100 residential and commercial clients, ensuring all work met Colorado state codes and client specifications while maintaining high-quality standards.
- Diagnose and resolve leaks, blockages, and other plumbing issues efficiently, resulting in a 25% reduction in repeat service calls.
- Collaborate with contractors and inspectors to ensure plumbing installations complied with building regulations and project timelines.
- Deliver training sessions on plumbing codes, safety standards, and customer communication to 4 new hires, improving overall team competency.

2014 - 2017

Plumbing Apprentice

Mile High Plumbing Services / Aurora, CO

- Supported plumbing teams in pipe fitting, fixture installation, and equipment maintenance across various residential and commercial projects, ensuring compliance with safety procedures.
- Maintained worksite cleanliness and safety according to OSHA standards, contributing to accident-free job sites.
- Assisted in managing materials and tools, helping reduce project delays by ensuring supplies were available when needed.

Volunteer Work

Participated in Habitat for Humanity build projects, installing plumbing systems for low-income housing developments in the Denver area since 2018.
