Professional summary

Highly trained and mission-focused Tactical Paramedic with experience in pre-hospital emergency care, tactical medical support, and high-risk operations alongside law enforcement and SWAT units. Skilled in trauma management, advanced life support, and rapid assessment in austere environments.

Experience

May 2020 - October 2025

Tactical Paramedic

Denver Metro Tactical Medical Unit

- Deployed with SWAT teams during high-risk warrant services, barricaded subjects, and active shooter incidents.
- Provided immediate trauma care in the field including hemorrhage control, needle decompression, and airway support.
- Conducted pre-mission medical briefings and post-mission debriefs for law enforcement personnel.
- Maintained readiness of medical gear and ensured rapid deployment capabilities.
- Delivered tactical medical training to law enforcement officers in TECC and self-aid/buddy-aid protocols.

June 2017 - April 2020

Paramedic

Front Range EMS

- Responded to 911 calls for medical emergencies including trauma, cardiac events, and respiratory distress.
- Collaborated with hospitals, dispatch, and law enforcement to ensure seamless patient care.
- Administered medications, IV fluids, and advanced airway procedures in accordance with medical protocols.
- Trained new EMTs and paramedics in field protocols and patient communication.

Volunteer Service

2019 - Now

Medical Support

Volunteer

Rocky Mountain Search & Rescue Team

- Provide medical coverage for wilderness rescues and backcountry operations.
- Assist in locating and stabilizing injured hikers and climbers in remote areas.
