Professional summary

Highly skilled and disciplined Military Pilot with experience in flying advanced aircraft, performing combat and reconnaissance missions, and providing logistical support. Seeking to transition into a civilian aviation role where my expertise in operational planning, team coordination, and high-pressure decision-making will be an asset.

Experience

March 2014 - February 2025

Captain, Fighter Pilot
U.S. Air Force

- Led and executed over 1,200 hours of training missions, utilizing fighter jets (F-22 Raptor, F-16 Fighting Falcon).
- Conducted reconnaissance, surveillance, and intelligence-gathering missions across hostile territories, ensuring operational success and mission accuracy.
- Developed and executed flight plans, analyzing intelligence reports.
- Trained and mentored junior pilots, providing guidance on flight procedures.
- Collaborated with ground forces and command units to coordinate joint operations and support strategic objectives.

June 2011 - February 2014

First Lieutenant, Helicopter Pilot
U.S. Army

- Flew multiple types of helicopters (UH-60 Black Hawk, CH-47 Chinook) for transport, search and rescue, and tactical operations in combat zones.
- Coordinated and executed troop transport and medical evacuation missions under hostile fire, ensuring the safe extraction of personnel and equipment.
- Worked closely with ground forces and air support teams, providing real-time aerial support and reconnaissance during combat operations.

Additional information

- Security Clearance:** Top Secret (Active)
- Physical Fitness:** Maintained military physical fitness standards, passing all physical readiness tests with superior scores.
